You can't fake fast.

Fast is a 200-hp turbocharged engine, sport suspension, and an available DSG® transmission with Tiptronic®, tuned to perfection right off the assembly line. All the fluorescent paint, graphics, air scoops, and spoilers in the world can't change that, because fast is more than flash, it's a total performance package. And it's just waiting to make you take a second look at what performance is all about — the Volkswagen Jetta GLI. That's the Power of German Engineering.

You can't fake fast.

Look behind the finely tuned Volkswagen Golf R and you'll find plenty of imitators, wannabes, and pretenders. You may also notice purple spoilers, flame graphics, and faux air scoops. But the Golf R stands out from the crowd with a total performance package — 256 hp, 4MOTION® AWD, a sport suspension, and the only transmission a car like this needs...a 6-speed manual. This is more than just speed, this is what performance really looks like. That's the Power of German Engineering.
