Body Shaping Cream

Get firm with stubborn curves.

For women who want curves in all the right places, Clarins, the pioneer of body beauty for more than 50 years, presents Body Shaping Cream. Packed with our most effective plant extracts, it zooms in on problem areas - arms, waist, hips, stomach - to visibly firm and redefine. As you massage, its sensationally light, airy texture blends into your skin to help melt away stubborn curves. What's left is the slim, firm figure you really want. Clarins, No.1 in European luxury skin care*.
