"STEREOSCOPIC"
THROUGH THE EYES OF THE LEXUS LS
AND PHOTOGRAPHER GILES REVELL.

Options shown. *Advanced Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. Driver Attention Monitor is designed to alert the driver if a potential hazard is detected ahead and the driver's face appears to be turned away. The Active Pedestrian Detection System is designed to help reduce the impact speed and damage in certain frontal collisions only. They are not collision-avoidance systems and are not substitutes for safe and attentive driving. System effectiveness depends on many factors. See Owner's Manual for details. ©2014 Lexus.

2060

Our neighborhoods are disappearing fast.

Every second we lose an area the size of a football pitch.
Every minute we lose an area the size of the Sydney Opera House.
Every hour we lose an area the size of Central London.
Every day we lose an area larger than all five boroughs of New York City.
Every week we lose an area 15 times the size of Paris.
Every month we lose an area six times the size of Kazakhstan.
Every year we lose an area three times the size of Iceland.

At this rate half our remaining neighborhoods will be gone by 2060 and by 2080 there will be no remaining neighborhoods. If our neighborhoods are further destroyed, we will lose not only one of the world's greatest treasures, but also our last best chance for the planet's survival.

Please join us and see how you can help. Visit www.R.I.U.K.org today.

BREATHE

Exposed on the lungs of the earth. The structure of bronchi has been
a building for many years. The structure of bronchi has been
built on the earth. The earth is built on the earth. The
earth is built on the earth.
