## Gold Standard

After trading Hollywood for a slower pace in Northern California, Michelle Pfeiffer makes a dazzling big-screen comeback

## Finding New Ground

For Rodarte designers Kate and Laura Mulleavy's first feature film, it was only natural that they tapped their best friend Kirsten Dunst for the starring role—but they say she's actually the only person who could have played the part. C sat down with the trio to recap their collaboration on *Woodstock*, which was set deep within an old-growth forest in Northern California.
