DENIM REPORT

FALL 2014

#DENIMDEBUNK

YOUR FALL FORECAST: DENIM WITH A CHANCE OF DENIM

Today is the best day to be a denim lover. Today as in this minute, but also tomorrow, and the day after that. Why? Because our denim is better than ever. Thanks to the latest technology, the fabric is stretchier and cooler, and now there's a wash, shade and style you'll want to wear for any occasion (from wide legs and popover tops to jeans as soft as they might replace your Saturday sweats). And as our designer Joyce says, "Some of the coolest styles aren't even jeans at all." So consider this your road map for the season: how to mix the new shapes into your wardrobe, Joyce's styling trends and what all this "denim technology" stuff actually means.

©2014. The Jean debut was with the Riverside Palazzo. ABOVE: The Perfect Vintage Jean was with the Casual Black and Plum. DENIMER celebrates courtesy of a guest stylist, age 31.

6 DENIM MYTHS, DEBUNKED

For every new rule to follow, there's one to forget. Shop all our denim at madwell.com/denim.

1. YOU CAN'T BE COMFY IN SKINNY JEANS

An over-the-top, stretch-to-see technology... jeans are softer and stretchier than ever.

2. YOU CAN'T WEAR WIDE LEGS WITH FLATS

The classic figure... these styles-it makes legs look a million times longer.

3. YOU CAN'T FIND GREAT JEANS WITHOUT BREAKING THE BANK

It's time to end this once-and-for-all myth. The kind made of premium denim... don't have to cost a ton (even start at \$99).

4. YOU CAN'T WEAR WHITE JEANS AFTER LABOR DAY

We love wearing white jeans... just add a seasonal button-down or tee.

5. YOU CAN'T WEAR OVERALLS WITHOUT LOOKING LIKE A KID

The secret to pulling off the look... slip the overalls on and pull on a pair in a way, streamlined fit.

6. YOU CAN'T WEAR HIGH-WAISTED JEANS AND EAT PIZZA

A higher rise (and a bit of stretch) means your tummy will stay tucked-in... denim recall. Hence... suggest.

ACCORDING TO JOYCE

We took your denim Qs on Instagram, Facebook and Twitter. Our designer's now sharing her (super-helpful) suggestions.

#LEGCRUSH: WHAT'S A NEW NO-HEELS-REQUIRED FIT FOR SOMEONE FEET?

JOYCE: A classic straight leg. A high rise and cropped hem will make legs look longer.

#FASHIONHEAD: ROCKING DENIM ON DENIM: HOW DIFFERENT (IF AT ALL) SHOULD THE WASHES BE?

JOYCE: Instead of matching, choose different washes. It's more laid-back and easier to master. Add a leather belt or simple scarf to break up the blue.

#FITLARKRABBIT: ANY DENIM RECOMMENDATIONS FOR PREGNANT CHICKS?

JOYCE: We just launched maternity jeans, and my advice is to buy them early-you can wear them at every stage of your pregnancy.

#DENIMROCKS: ANY NEW WAYS TO STYLE MY DENIM JACKET?

JOYCE: It can be worn like a button-up like a shirt. If oversized, wear it like a cardigan. Also, adding an embroidered monogram is my favorite way to give a jacket some personality.

"THERE'S SO MUCH HAPPENING IN THE DENIM WORLD. I LOVE THE NEW SHAPES, LIKE TRENCH COATS AND SHIRT-DRESSES, AND FOR JEANS, UNFINISHED EDGES AND TWO-TONE WASHES."

DENIM RULES TO DRESS BY RIGHT NOW

With these updates and styles that never... a few handy tips are in order.

TRY WIDE LEGS.

A fresh update to the rise styles you love it, they're also just as easy to wear (pair yours with flat or lower-top, richer shades).

A HIGH RISE SHOULD HIT AT YOUR NATURAL WAIST.

Why? It's the silhouette part of your silhouette (and the part you want to show attention to). Choose between a 9" or an 11" rise to find the best fit for you.

IF IN DOUBT, ADD MORE DENIM.

Imaginable fall temps, mix (and mix) denim like a Denim Jacket over a button-down shirt and layered with your style together. Even pair it for layering over a denim top. Just be sure to mix up your denim.

DO THE VINTAGE VIBE THING.

Without having to look down a pair. The hip-line, straight-leg fit of our Perfect Vintage Denim has the just-right dose of nostalgia.

OUR JEANS, BEHIND THE SCENES

Slipping into your favorite pair of jeans is an easy, familiar feeling-but before ours hit your closet, we've been sketching, designing and talking about them for a long time. Here, a glimpse at the journey we go on to create the best denim ever.

THOSE LIGHTBULB MOMENTS

Inspiration can strike at any time. That's why some of our jeans start as sketches on napkins or words filled scribbles outside even text exchanges between our designers. But nothing beats exploring the world's best markets and museum (i.e. our passport stamps? London, Japan and Mexico (plus closer-to-home spots like LA and the Southwest).

WEAVING THE SMALL STUFF

At our LA denim office, samples of every pair are created by our crew. We like to say each one has their own superpower-our patternmaker brings sketches to life, while Bryan (that's his on the left) obsesses over washes and hand distressing. What? Actually wearing the samples to see how they break in. Perfectionist? Yep.

WOVEN TOGETHER

Of all the fancy things to describe denim technology, there is one word you should know: Refuse, our newest fabric courtesy of Turkish mill ERGÜ with all-day stretch that makes you look-and feel-smoking. Test it out with a 360° spin in the mirror. No advanced tech needed.

THE HOMESTRETCH

Once our jeans are in your hands, make sure not to wash them too often (once every 10 wears will do) and don't keep 'em in the dryer for longer than five minutes. (Air-drying is the way to go.) Hint: The more you wear each pair, the better they look.

Spring. Time to lighten, to shift, to reconsider. We've gathered our closet heroes and given them subtle updates—a higher rise here, shorter sleeves there—to make them feel renewed. Think of it as the perfectly edited wardrobe for a faraway vacation (we took ours to Morocco) or to wear on repeat now and through summer (we certainly will). To warm-weather journeys near and far.
