YOUR SUMMER MUST LIST

CHRIS PRATT IS GOING PALEO

The *Guardians of the Galaxy* star isn't content with taking down intergalactic warlords. This summer he proves he's man enough to destroy genetically altered dinosaurs, too.

MEN OF THE YEAR

The
Breakouts

Eddie

Redmayne

Age: 32
Hometown: London
When we first saw him: 2012's *Les Misérables*, serenading Amanda Seyfried with drama-club favorites.
When we knew he was good: His transformation from dashing to disabled as physicist Stephen Hawking in this fall's *The Theory of Everything*.
Best strategy for landing and/or blowing a role: He met *Theory* director James Marsh at a London pub, and "it was at about 3 p.m.—that killer moment where you're not sure if the other person will be drinking. I went bulldozing in for a pint, and he had a coffee, and I was like, 'Oh no.' I ended up having three or four more, so as it wore on, he got more wired and I got more pissed."
What's next: The villain in 2015's *Jupiter Ascending*, from *The Matrix* directors Andy and Lana Wachowski.
