## Behind the Velvet Rope

Strobe lights and synth-pop sounds bounce off the walls as the 21st-century club scene makes its way to the club to live and be seen - their androgynous looks reflecting glam, breezy beats, and vibrant lyrics address the carefree side of a party who's always at the center of the dance floor - jeans, leather and paint splattered as they move to the music.

LEVI'S MIDDLE FIT JEAN

## Youth in Revolt

Emerging from deep in the suburbs, grunge brings introspective emotions to the masses. A genre full of searing, hard lyrics and melancholy vocals and melancholy chords. These together make turn up shirts and jeans worn down to shreds, minor those creating and rebelling against the establishment.

**ICONIC DENIM • THEN & NOW**

Socially charged, grass-rootsed artists dressed up on a quad with lyrics to change the world. Three-decade jeans getting a fresh re-order pairing screams and searing vibrations of an electric guitar. Angst-infused, torn up grunge oozing into suburban, from underneath a garage door. Music genres are products of the environment — each one a result of the unique setting in which it was created.

For 50 years, Levi's and Rolling Stone have been at the center of it all. Join us as we celebrate the timeless intersection of music and style.

Shop the collection at [Levi.com](http://Levi.com) and at select Levi's stores.

**Free Love on the Quad**

Whether on a college campus or in a city park, the quad has been — and always will be — the breeding ground for denim by both its youth and its adults. Students, protesters, musicians gather in their denim-washed, frucker jackets and grass-stained jeans to compose rebellious lyrics, all to acoustic chords with hopes of sparking a movement and a better tomorrow.

**Chasing Sunrise**

Beneath hot sidewalks and closed dorms, the underground scene thrives with the freedom of losing yourself in the music. Born from lo-fi speakers, pulsating energy onto the sweaty rock pit where a rule-breaking, defiant scene was born. At the center of it all are the punk rockers — shredded jeans, bleached hair, bare skin and a dangerous, unapologetic attitude.
