The cover of Art Department magazine features a portrait of actor Jared Leto. He has long, dark, wavy hair and a full beard, looking directly at the camera with a serious expression. He is wearing a light blue and white vertically striped button-down shirt under a cream-colored, oversized blazer. The background is a plain, light gray wall. On the left side of the cover, there is a large, thin, gold-colored letter 'C' with the words 'FOR MEN' in a bold, black, sans-serif font underneath it. On the right side, the words 'SMART MOVES' are written in a large, bold, gold-colored, sans-serif font. Below this, there are four article teasers in a smaller, black, sans-serif font. In the bottom left corner, there is a barcode with the number '0 174851 64509 3' and the text 'FALL/WINTER 2018 \$6.99' above it.

FATHER JOHN MISTY'S FUNNY BONE

WHEN FATHER JOHN MISTY released *Pure Comedy* in April, we heard the simultaneous knuckle crack of every music writer in America: At last, art of the Trump era! The searing indictment of our times we pre-ordered on Amazon!!

And *Pure Comedy*, the third record of former Fleet Fox (and sardonic Laurel Canyon lyricist) Josh Tillman, ended up sounding...pretty much exactly like we'd hoped it would. FMJ's wallop "Where did they find these goons they elected to rule them?" arrives in the second verse of the first song. And while you might expect to settle in for a two-devil screamer of a lecture from there, *Pure Comedy* is actually much funnier and more

interesting—the unspooling of a giant brain (or at least "a Horatian worldview," as Tillman describes it) over some slinky '70s-in-joke piano, winking full Elton. It's a hotel-bar act in which the slender-bendy quaver of the good Father rises to say: *We're SOL, species. But! Let us give thanks that our toxic primordial stew hath begotten the shimmering crush of an E to an E7 to a big fat open A. And isn't that aural splendor worth all the pain? Maybe?*

"I've seen a lot, like, This album is basically a Twitter rant," Tillman says, in a flavor Baskin-Robbins would call Didactic Deadpan. "No—a Twitter rant is a Twitter rant." In fact, it's comical he frets most about. This album was written in 2015, mastered pre-election 2016, and is intent on giving *humanity*, not just Trump, a grill-top chase. So what is the proper framework in which to enjoy *Pure Comedy*, an album most critics have not called a Twitter rant so much as, quote, "a masterpiece"? Josh?

"Well, the things that people take really seriously are usually really funny to me, and the things that people find really funny are usually deeply *bad* to me. Not that things are the *opposite* of how they appear—but that they are more *multi-voiced* than they appear, you know? Wow. I've already chased everyone away from this page.

"That said, I think that a song should be a place where you can silence your critical mind—but life's not always funny. There's real pain in the world, and misery! And you shouldn't laugh! And a song—I use gospel music so that I can believe in God for three minutes. Because *I like* believing in God for three minutes, even though it doesn't jibe with my practical, day-to-day life. So a song is not a think piece. It's not a blog post.

"It's as close to a magical space as you can get. "And with this record, these just sound like normal songs to me! That may be hard for people to believe. But to me, listening back, these don't sound like political or topical—they just sound like *nice* songs. You can put laughs incredibly in brackets. Because one thing that doesn't come across, in particular, is that I'm typically laughing after everything that I say. *That* part of me, that perceives my own absurdity, is lost. It just comes across in this bone-dry way that can be pretty unappealing, which is the way something looks when it's just, like, pure *data*. You know? Even the way that I just said the word 'data.' With a little wink, or a smirk. When it's in print, it looks like I have a lab coat on. "You should put 'Tillman chorles'."

And he really does. —SARAH BALL

About These Clothes

... If you've never been quite brave enough to dabble in westernwear, now's the time to get a little bit country: All your favorite designers have started making embroidered shirts, string ties, beat-up hats, and the kind of boots made for roping steer. The trick to looking cool—and not like a Halloween cowboy—is integrating all this stuff with your regular city-boy clothes. Follow the lead of Father John Misty and wear these pieces with your least business-y suit and your most rock 'n' roll attitude.

A full-page photograph of Michael B. Jordan standing in a record store. He is wearing a light blue bucket hat, a black and white striped jacket, a black tank top, black pants, and black and white sneakers. He is leaning against a record rack and smiling. The store is filled with record racks and shelves. A text box is overlaid on the top right of the image.

Sure, **Michael B. Jordan** had beloved turns in two beloved shows: *The Wire* and *Friday Night Lights*. But what were the chances a young black actor like him would ever get to dig in and prove what he could really do? Well, when the role of a lifetime, in *Fruitvale Station*, came along, Jordan didn't just pull it off, he crushed it. Here, he wears the five coolest emerging clothing labels of the moment—a group we've deemed the New American Avant-Garde

How—and When—to Double Down

1. Want to make a double-breasted suit look modern (and not like something from a gangster flick)? Keep it short and trim. Unless you're over six feet two, don't buy a long. And no linebacker-quality shoulder pads, either.
2. If you can see the peak lapels in your peripheral vision, they're too wide.
3. Keep the jacket buttoned (including the interior button). It doesn't hang well when undone.
4. Buy one DB suit (you don't need a closetful). Keep it dark and keep the underpinnings simple. No pinkie rings, no gold watch.
5. Remember, this is a confident suit that suggests power. So if you're still an administrative assistant, you might want to hold off a few years before striding into the office in one.

A full-page photograph of actor Neil Patrick Harris. He is wearing a dark charcoal-colored suit over a light-colored, patterned button-down shirt and a brown tie. He is holding a black umbrella with both hands, and it is open. He is looking directly at the camera with a slight, confident smile. The background is a plain, light gray.

*You could wear the same wool suits twelve months a year—or you could breathe a bit easier this spring and do like **Neil Patrick Harris**. Pull on a thoroughly smart cotton suit in a range of colors and prices*

INSIST ON THE VEST

We should all own at least one three-piece suit. They're as classic as they are versatile—because remember, you don't always have to wear the vest.
