MEDIDAS CAUTELARES

Antes de aplicar la crema hidratante o el protector solar, conviene invertir en tratamientos con alta concentración de activos, como Blue Therapy de BIOTHERM, ya que ayudan a unificar el tono, difuminar los signos de la edad y reafirmar la piel del rostro. Es decir: a que la tez tenga cada día su mejor aspecto. Biquini de ERES.

Nada más predecible que un vestido o una chaqueta. Sin embargo, dependiendo del ámbito en el que se apliquen, sus dinámicas se pueden volver no lineales, dominadas por el azar. No dar nunca por sentado el comportamiento de una prenda es, pues, una norma a tener en cuenta.

Chaqueta de tweed de CHANEL, bragas altas de ERES, gafas de pasta de SELIMA, pulsera de oro con diamantes de CHANEL.
