Service with a style.
See how these bartenders turned their craft into art form

Brenda Terry, Tampa, FL

Greg Budo, NYC

Justin Lavenue, Austin, TX

Julie Anderson, San Francisco, CA

Vannoluck Hongthong, Boston, MA

Seongha Lee, Las Vegas, NV

Kevin Demers, Montreal, QB

To these bartenders an empty glass is just a blank canvas; every step in the process is it's own unique brush stroke. They journeyed from all over the country to the bright lights and hot nights of Las Vegas. And for 3 days they shook, stirred and muddled their way through the competition until there was only one drink left, standing. They were judged on taste, presentation, and most importantly, creativity. The judges selected 7 bartenders to advance to the

finals. On the final night of competition the 7 finalists created visionary cocktails made from exotic ingredients from all over the world and Bombay Sapphire Gin. In the end Justin Lavenue from Austin, TX was named the 2015 Most Imaginative Bartender with his drink The Poet's Muse. A Japanese-inspired drink that blended notes of citrus, rose, essence of mushroom and Bombay Sapphire Gin; a drink that would inspire any cocktail connoisseur to order another round.

Use space wisely.

We started out with a simple theory: if we designed the new Reach™ workspace with walls that double as storage, people could fit a lot of stuff in there. They could access files, printers, fax machines and anything else they wanted without ever leaving their seats. The space would feel much bigger than it is. People would like that. And if we offered this system in hundreds of different colors, they would like that too. So we put our theory to the test. To see the experiment documented in a short time-lapse video, go to allsteeloffice.com.

Allsteel
Designed to work. Built to last.
