СЕЗОН ОХОТЫ

Лето подкралось незаметно, словно грациозная дикая кошка. Встретить его во всеоружии помогут прозрачные ткани, винятые цвета, немного юношеского задора и абсолютная уверенность в себе.

MODERNT 90-TAL

KAJSA: "Tegelrött har varit bortglömt ett tag men känns nytt och fräscht igen. Färgen är starkt 90-talsinspirerad – ett arcionde som skönhetsmässigt genomstrålar många höstvisningar. Utöver läpparna hålls ansiktet rent för rätt 90-talskänsla."

Klänning: Vene Studios, 10 500 kr.

HALLONRÖDA LÄPPAR

KAJSA: "Höstens vackraste läppnyans är en röd med inslag av rosa. För att lyckas med läppstiftet målar jag alltid med en liten pensel och ser till att ytan är så fin som möjligt. Är läpparna nariga polerar jag lätt med en läppskrubb och smörjer med läpp balsam. Torka av överflödigt fett innan du målar, annars håller inte färgen lika bra."
