EL ÁNGEL VERD

Fotografía: Adam Franzino

Candice Swanepoel se crió en una granja en África. En su incipiente embarazo nos confiesa por qué debemos cuidar nuestro planeta en el entorno que mejor conoce y con el que se identifica: naturaleza, agua, viento, vida

Candice Swanepoel es una de las modelos más jóvenes del mundo. Tiene 21 años y es una de las más buscadas por los diseñadores de moda. Su estilo es sencillo y elegante, y su actitud es relajada y natural. Ella misma dice que su inspiración viene de la naturaleza y de su entorno en África. En su reciente embarazo, Candice ha estado pensando mucho en el futuro de nuestro planeta y en cómo podemos cuidarlo. Ella cree que es importante que todos nosotros tomemos conciencia de esto y que hagamos algo por el medio ambiente. Ella nos inspira a ser más conscientes de nuestro entorno y a cuidar el planeta que nos da la vida.

●● Es nuestro deber y nuestro regalo a las futuras generaciones respetar a la Madre Tierra. El planeta está sufriendo ●●

●● El cambio climático es un hecho, lo sentimos claramente... pero la gente decide no hacer caso. Debemos despertar ●●
