**MEN OF THE YEAR**

The  
Breakouts

Eddie

Redmayne

**Age:** 32  
**Hometown:** London  
**When we first saw him:** 2012's *Les Misérables*, serenading Amanda Seyfried with drama-club favorites.  
**When we knew he was good:** His transformation from dashing to disabled as physicist Stephen Hawking in this fall's *The Theory of Everything*.  
**Best strategy for landing and/or blowing a role:** He met *Theory* director James Marsh at a London pub, and "it was at about 3 p.m.—that killer moment where you're not sure if the other person will be drinking. I went bulldozing in for a pint, and he had a coffee, and I was like, 'Oh no.' I ended up having three or four more, so as it wore on, he got more wired and I got more pissed."  
**What's next:** The villain in 2015's *Jupiter Ascending*, from *The Matrix* directors Andy and Lana Wachowski.
