beauty innovator

She's been called a pioneer and an inventor, but more than anything Jane Iredale is a revolutionary. "I wanted to create foundation that would nurture skin, not irritate it," she says. "I wanted to formulate something I could feel good about producing, and that women could feel good about wearing."

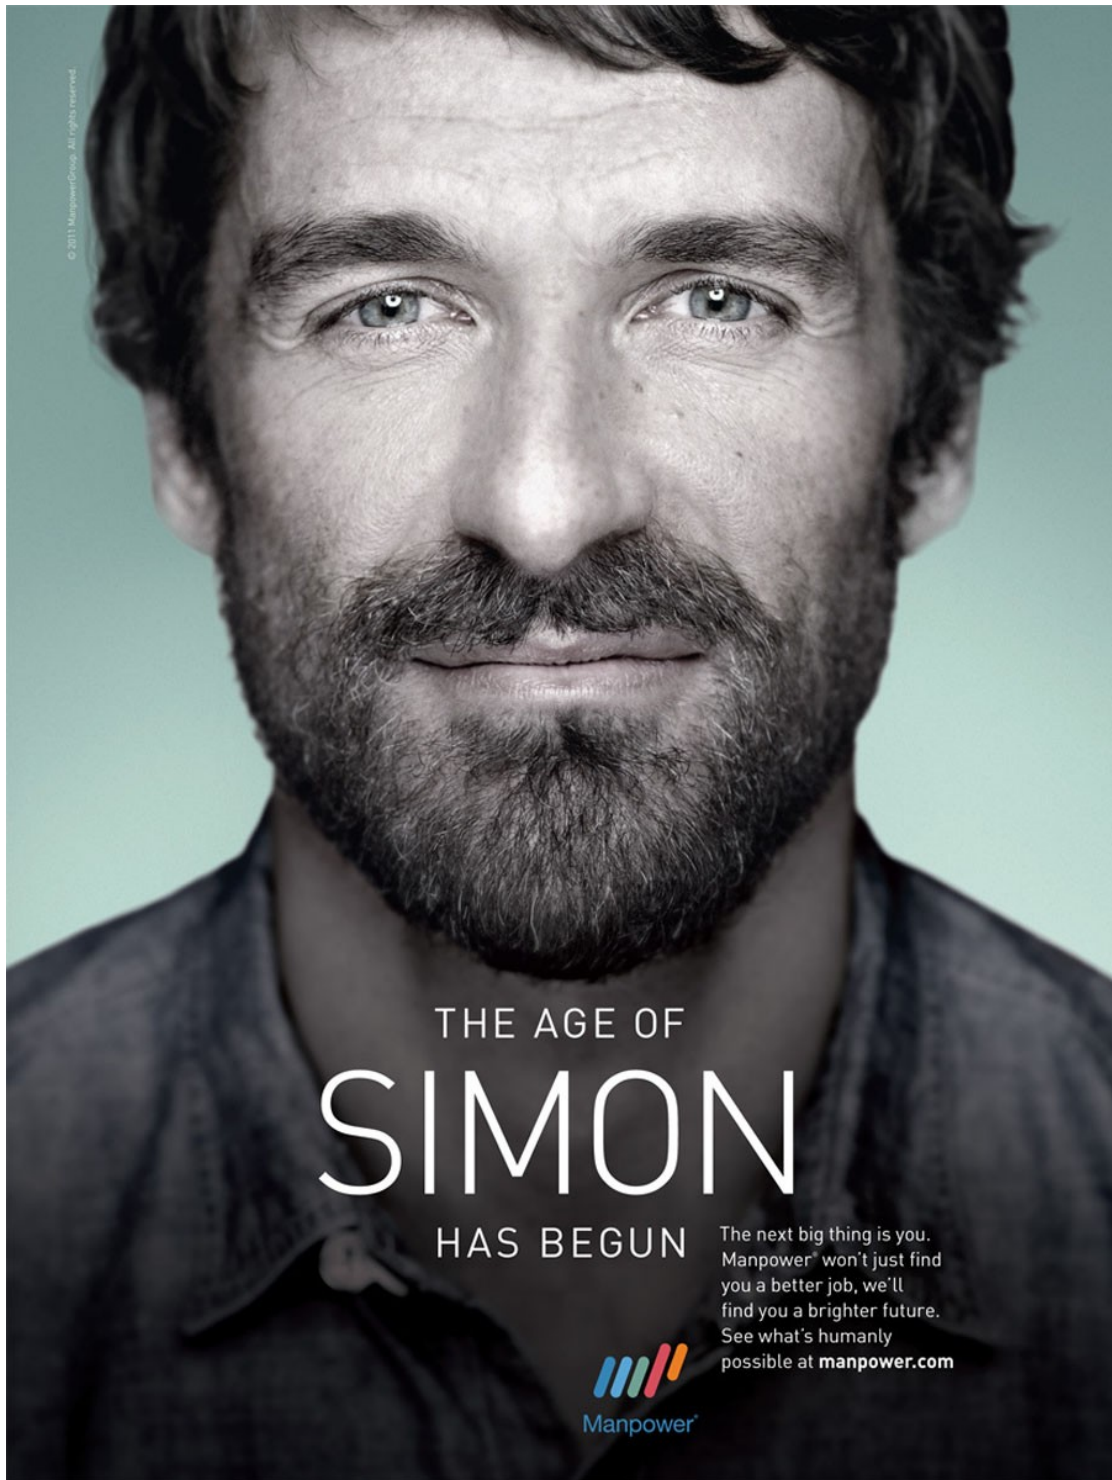

18 years later, Jane Iredale is well known for her innovative formulations that calm common skin conditions such as acne, eczema, and rosacea, as well as for a diverse, multifaceted cosmetics line to treat any in the world. "It's been a great joy to help so many women," she says.
