L'OFFICIEL EDITORIAL

Long Live the Colors

*Winter in New York is cold and long, the sky is often grey and the light goes down too fast. You add layers and layers in your outfit routine to keep yourself warm and you start dreaming about Spring and Summer. This is why it is always an absolute pleasure to shoot a fashion story about colors on a light wardrobe that brings you already, with your mind only, to the next season when the city, with its parks, will bloom again. We live in colors and luckily they are everywhere to inspire designers for making amazing pieces and for myself to photograph them.
Long live the colors.*

That spark

Fall in love with glitter, as sparkle and shine take over. "We're going to blow glitter onto the forehead and into her hair to look as if she's coming out of the water," described Val Garland at Preen. Offering a futuristic feel, it's all about excess.

TIP For just a touch of glitter, apply sparkle to your eyes and lids by using lipgloss to adhere it to skin.
